However, you still may feel the need to do a bit of editing in post-production to make your footage look more appealing to yourself and the audiences, be it on Instagram, Youtube, or any other social networking site.. GoPro Studio – the official free video editing software by GoPro (compatible with both PC and Mac) is one such tool that lets you edit your high quality GoPro footage.. Now updated to support HERO4 Session, The GoPro App makes it easy to control your camera remotely with your Windows Phone.. Although the app is no longer available on the official GoPro website, you can still download it for your Mac or Windows desktop from various third-party sites.. However, In reality that's far from what actually happened! Many users

complained of a lack of several features, speed and convenience in the GoPro Quik app.. GoPro Studio, the software that came bundled with the GoPro Quik app for desktop, was discontinued in August 2019 by the company.. It lets you trim videos, add background music, speed up or slow down the motion of your footage, compress large videos and a lot more...What happened to GoPro Studio?Download GoPro for Windows 10 for Windows to control.. I just went to the Apps page on gopro.com and the Quik for Desktop (Mac and Windows) is no longer there, instead there is the Max360 apps..
